I can feel your heartbeat, baby, all the time
It echoes like a koto playing in my mind
I want you near me each and every day
With you, I know our love will always find a way

When I see you smiling, baby You give me butterflies, you can be my samurai So glad to be your lady Could it be forever true, all I think about is you

Doki doki, follow me, it's enchanting like a dream Forever and a night, baby you and me Doki doki, we will be, when your heart beats next to me Underneath the moon, love will set us free (whoa-oh-oh)

When we walk together and you're by my side I know that I am yours and, baby, you are mine I get so excited bout the things you say Feeling like I am the luckiest girl today

When I see you smiling, baby You give me butterflies, you can be my samurai So glad to be your lady Could it be forever true, all I think about is you

Doki doki, follow me, it's enchanting like a dream Forever and a night, baby you and me Doki doki, we will be, when your heart beats next to me Underneath the moon, love will set us free (whoa-oh-oh)

When I see you smiling, baby You give me butterflies, you can be my samurai So glad to be your lady Could it be forever true, all I think about is you

Doki doki follow me, it's enchanting like a dream Forever and a night, baby you and me Doki doki we will be, when your heart beats next to me Underneath the moon, love will set us free (whoa-oh-oh)
