Like a warm summer day  
Like a warm day in May  
Babe you make me feel so hot

Like a small butterfly  
Like a bird in the sky  
Feels like a star that I'm not

You told things that I never knew  
So what am I suppose to do  
Running around like a little kid  
One-Two-Three and I'm hit hit hit

Like a dragonfly flying high in the sky  
There is light above and beyond you and I  
Like a dragonfly flying high in the sky  
There is light above you and I

Like a small paradise  
Like a scent of a spice  
Yes I guess I understood

Like a flower so sweet  
Like a lover and me  
Boy you make me feel so good

You told me things that I never knew  
So what am I suppose to do  
Running around like a little kid  
One-Two-Three and I'm hit hit hit

Like a dragonfly flying high in the sky  
There is light above and beyond you and I  
Like a dragonfly flying high in the sky  
There is light above you and I

Like a dragonfly flying high in the sky  
There is light above and beyond you and I  
Like a dragonfly flying high in the sky  
There is light above you and I

Like a dragonfly flying high in the sky  
There is light above and beyond you and I  
Like a dragonfly flying high in the sky  
There is light above you and I

Like a dragonfly flying high in the sky  
There is light above and beyond you and I  
Like a dragonfly flying high in the sky  
There is light above you and I
