We can be together  
We can be together  
Together, you and I!

We can be together  
Let's have a good time, baby!  
We can be together  
Forever and ever!

We can be together  
Let's have a good time, baby!  
We can be together  
Together, you and I!  
We can be together  
Let's have a good time, baby!  
We can be together  
Forever and ever!

You to me, are everything  
Everything that love can bring  
You're the moon, you're the stars, in my sky

Lucky me, cause I found you  
So much fun whenever I'm with you  
You're the sun, cause you shine in my sky  
You're the one for me

We can be together  
Let's have a good time, baby!  
We can be together  
Together, you and I!

Let's have a good time, baby!  
We can be together  
Forever and ever!

Let's have a good time, baby!  
So come along  
Let's go to lovely places  
Where we belong

You're my love, my dream come true  
Don't you know my heart belongs to you?  
You're the moon, you're the stars in my sky

I got a ticket to a magic place  
So come along to the happy days  
Where the sun always shines in the sky  
You're the one for me
