

## Black and Blue

Smile Empty Soul

You're crossing over  
Fall to the weakness  
That grows inside you  
But you don't see it  
Time to discover  
Where is the deepest  
How dark is nothing  
When you believe it

I don't understand how you  
Look right through it, lately  
It gets the better of you

Black and blue  
You stare into the void  
Seems like it's ignorant  
Looks like it's innocent  
But it gets the better of you

You hear it calling you know the season  
Better be careful  
It's worth repeating  
Your life is empty  
For no good reason  
Pick up the pieces  
And start believing

I don't understand how you  
Look right through it, lately  
It gets the better of you

Black and blue  
You stare into the void  
Seems like it's ignorant  
Looks like it's innocent  
But it gets the better of you

Black and blue  
You buy into the noise  
Seems like it gives a shit  
Looks like it's innocent  
But it gets the better of you

Losing ground  
Losing ground

Black and blue  
You stare into the void  
Seems like it's ignorant  
Looks like it's innocent  
But it gets the better of you

Black and blue  
You buy into the noise  
Seems like it gives a shit  
Looks like it's innocent  
But it gets the better of you

Black and blue  
Black and blue
