

Every Sunday

Smile Empty Soul

I don't have time for your solutions
and I don't wanna deal with your mistakes
no matter how much medication
the doctor says I need to take
I still say....

You're the ones that kill your babies
You're the ones that fuck your kids
You're the ones that throw each other away
You're the ones sitting in church every sunday

And I don't want your religions
and I don't need your sympathies
and I don't want a part of all your hatred
No matter how much you yell at me
I still say...

You're the ones that kill your babies
You're the ones that fuck your kids
You're the ones that throw each other away
You're the ones sitting in church every sunday
