

Fight of a Suburban Couple

Smile Empty Soul

Your so into this news thing on the TV set
I don't know why you care when wheel of fortune is on next
We could watch yuppie families
Playing for great prizes
We could forget about this fucked up world while TV blinds us
Your so into your game shows on the TV set
When we could watch the world explode tonight on channel ten
We could watch fucked up families
As they fuck each other
We could forget about the good things in this world together
