

Landslide

Smile Empty Soul

Sing it like a sad song
Heartfelt sorrow
Tell me where I went wrong
Feel so hollow

Back against the edge again
Way too close to falling in
Got to stay away from landslide
Don't ask why

Close my eyes can't I forget
How my life is such a mess
All the while just pretend
I'm alright

Leave me with the light on
I won't follow
Show me where I went wrong
Watch me wallow

Back against the edge again
Way too close to falling in
Got to stay away from landslide
Don't ask why

Close my eyes can't I forget
How my life is such a mess
All the while just pretend
I'm alright

Close my eyes and take a hint
Letting go, hold it in
All the while I'll pretend
I'm just fine

Close the door, let me
Feel the room out
Kill the light before you go

Close my eyes can't I forget
How my life is such a mess
All the while just pretend
I'm alright

Close my eyes and take a hint
Letting go, hold it in
All the while I'll pretend
I'm just fine
just fine
just fine
just fine
just fine
