

Loser

Smile Empty Soul

I've always tried for the best
I never wanted everything to end up so confusing
If all my life is a test
I never thought that God would find my failure so amusing

Give me something good and I'll fuck it up
All my life I've tried but never had much luck
To be happy but I guess it's just not meant to be
I'm gunna die a loser

I'm sorry family and friends
I always wanted to be something you could all be proud of
All I am is a mess
And you still give me every chance in the world and of your love

Give me something good and I'll fuck it up
All my life I've tried but never had much luck
To be happy but I guess it's just not meant to be
I'm gunna die a loser

I'm gunna die a loser

Give me something good and I'll fuck it up
All my life I've tried but never had much luck
To be happy but I guess it's just not meant to be
I'm gunna die a loser

I'm gunna die a loser
I'm gunna die a loser
