

Is it normal to feel like I'm nothing
In a nothing world?
Much harder to heal when there's something
But I can't be sure

I feel like dying tonight
Stay away from me
I've never done nothing right
Keep your sympathies
I know I've lost it again
I'm finding it hard to explain
This new low

Is it something I said
That brings nothing to your empty head?
The whole world in red
Is it better to be powerless?

I feel like dying tonight
Stay away from me
I've never done nothing right
Keep your sympathies
I know I've lost it again
I'm finding it hard to explain
This new low

I feel like dying tonight
Stay away from me
I've never done nothing right
Keep your sympathies
I know I've lost it again
I'm finding it hard to explain
This new low
