

Not Alright

Smile Empty Soul

The cuts I bare are deep and
And all they do is bleed
I wish I could release all
The hurt you've given me

I can't let go
And all I know is then

I hope your not alright
I hope your not okay
And when you sleep at night
Dream of only me

I know I need to forgive (forgive)
And hopefully forget
To leave the past behind is
Probably for the best

I can't let go
And all I know is then

I hope your not alright
I hope your not okay
And when you sleep at night
Dream of only me

I hope your not alright
I hope your not alright

I should only want (I should only want)
The best for you
A happy life (happy life)
The skies are blue

I hope your not alright
I hope your not okay
And when you sleep at night
Dream of only pain

I hope your not alright
I hope your not alright
I hope your not alright
I hope your not alright
