## **Not Alright**

## Smile Empty Soul

The cuts I bare are deep and And all they do is bleed I wish I could release all The hurt you've given me

I can't let go And all I know is then

I hope your not alright I hope your not okay And when you sleep at night Dream of only me

I know I need to forgive (forgive) And hopefully forget To leave the past behind is Probably for the best

I can't let go And all I know is then

I hope your not alright I hope your not okay And when you sleep at night Dream of only me

I hope your not alright I hope your not alright

I should only want (I should only want) The best for you A happy life (happy life) The skies are blue

I hope your not alright I hope your not okay And when you sleep at night Dream of only pain

I hope your not alright I hope your not alright I hope your not alright I hope your not alright
