

Refill Me

Smile Empty Soul

I love my job
I love the house I live in and I love my mom
I love the teachers at my school they teach me how to love

But best of all
I love the pills the doctor gives me
Don't talk shut up just refill me
Cause I'm feeling kind of low today
Pills to make it go away

My friends are great
All they do is talk without nothing to say
I love L.A
The air is beautiful and it's sunny everyday

But best of all
I love the pills the doctor gives me
Don't talk shut up just refill me
Cause I'm feeling kind of low today
Pills to make it go away

I'm better off like this
Then to feel the real shit
This haze this fog this bliss
Twist the top give me another kiss

I love the pills the doctor gives me
Don't talk shut up just refill me
Cause I'm feeling kind of low today
Pills to make it go away

GO AWAY
GO AWAY
