

This Is War

Smile Empty Soul

I'm just a normal man
I wouldn't hurt nothing at all
But here we are

Our leaders have a plan
I'd only kill if it's for them
Now here we are

I drove in a car and flew in a plane
To come to your house and kick your door in
Now it's down to this, it's just you and me
I'll blow your fucking head off for my country

I go to church and tithe
I go to work in a suit and tie
But this is war
I'm really not sure why
But the tv says that you are wrong
Now here we are

I drove in a car and flew in a plane
To come to your house and kick your door in
Now it's down to this, it's just you and me
I'll blow your fucking head off for my country

My feet hurt from the sand
But still I march on gun in hand
Cause this is war
This isn't what I planned
I wanted to be so much more
But this is war

I drove in a car and flew in a plane
To come to your house and kick your door in
Now it's down to this, it's just you and me
I'll blow your fucking head off for my country
