

## Walking Away

Smile Empty Soul

Just another lonely,  
Just another lonely day  
You don't even know me anymore,  
And I don't even know what to say  
This is getting so old,  
This is getting so hard to take  
Imagine that we used to be so close,  
But now that seems so far away

Breaking out from the inside  
Breathing air from the outside baby  
Breaking out from from the inside and I'm walking away

Just another lonley,  
Just another lonely phase  
I don't know if things can get much worse,  
I'm already flat on my face  
This cage will never hold me,  
This cage will never hold me wait  
I need to find the strength inside me now,  
To stand up for myself and get away

Breaking out from the inside  
Breathing air from the outside baby  
Breaking out from from the inside and I'm walking away (2x)

And im feeling so confused in this place  
And I'm trying not to lose my mind (2x)

Breaking out from the inside  
Breathing air from the outside baby  
Breaking out from from the inside and I'm WALKING AWAY!!

Breaking out from the inside  
Breathing air from the outside baby  
Breaking out from from the inside and I'm walking away (2x)
