

## Astronaut

Smog

I feel like an astronaut  
Suffocating on the moon  
So far from home  
Encased in this plastic dome  
I can barely see the earth from here  
I cut my tether willingly  
'Til I realise it's killing me  
But something always saves my life  
Wish I knew it's name  
I should never be an explorer  
Makes me sick
