

# Drinking At The Dam

Smog

I remember drinking at the dam  
With the jarheads on the other side  
Warm beer and tearing up the cans  
And all of us yelling abuse  
Cutting school to go drinking at the dam

Skinmags in the brambles  
For the first part of my life  
I thought women had orange skin  
It was the first part of my life  
Second is the rest

And now teenage warchests fill  
And do the dirty dirty work  
It was the first part of their lives

Drinking at the dam  
Holding back what I can  
But the power is so much

Drinking at the dam  
Holding back what I can  
I'm just drinking at the dam  
I'm just drinking at the dam  
I'm just drinking at the dam
