

Left Only With Love

Smog

I'm left only with love for you
You did what was right to do
And I hope you find your husband
And a father to your children

'Cause I'm left only with love for you
You did what was right to do
And I hope you find your husband
And a father to your children

When I lost you, I lost my family
You did what was right to do
And I hope you find your husband
And a father to your children

'Cause I'm left only with love for you
You did what was right to do
And I hope you find your husband
And a father to your children
