## **Left Only With Love**

I?m left only with love for you You did what was right to do And I hope you find your husband And a father to your children

?Cause I?m left only with love for you You did what was right to do And I hope you find your husband And a father to you children

When I lost you, I lost my family You did what was right to do And I hope you find your husband And a father to your children

?Cause I?m left only with love for you You did what was right to do An I hope you find your husband And a father to your children
