## **Spanish Moss**

Anybody else would tell you My face is dead But I say it's a lie There's only one road in

And it's easy To miss

It's surrounded by swamps With green Snakey vines.

Anybody else would tell you My face is dead But I say it's alive

There's only one road in And it's easy To miss

It's surrounded by swamps With green Snakey vines.

Anybody else would tell you My face is dead But I say it's a lie
