

## Strayed

Smog

Well, it's strange the way  
You walk behind  
But seem to lead the way  
Oh, I know i,  
Oh, I know I have strayed

I have taken you for a ride  
Left you waiting in the car  
While I played death games inside  
Oh, I know i,  
Oh, I know I have strayed

I have loved in haste  
I've been an alleycat and a bumblebee  
To your panther and your wasp  
Oh I have loved  
While thinking only of the cost  
Oh, I know i  
Oh, I know I have strayed

I've raised a sick child to your lips  
And in asking you to kiss  
What I would not kiss  
Oh, I know i  
Oh, I know I have strayed

Well I never thought I'd be  
One of those men  
With pin-ups on their wall  
For all to see  
I thought that was just mechanics  
Oh, I know i  
Oh, I know I have strayed

I have taken you for a ride  
Left you waiting in the car  
While I played death games inside
