

# Teenage Spaceship

Smog

Flying around  
The houses at night  
Flying alone

A teenage spaceship  
I was a teenage spaceship  
Landing at night

I was beautiful with all my lights  
Loomed so large on the horizon  
So large, people thought my windows were stars

So large on the horizon  
People thought my windows were stars  
A teenage spaceship, a teenage spaceship

And I swore I'd never lay like a log  
Bark like a dog  
I was a teenage smog  
Sewn to the sky
