

What Kind Of Angel

Smog

She's had everyone
She made me doubt women
She said I could do it without protection
That's not a woman at all
She says she's an angel
That's not a woman at all
Well, what kind of angel
What kind of angel is that?
What kind of angel
What kind of angel is that?
It's an angel of death
The angel of death

She's gonna kill someone
The angel of death
Ah! The angel of death
She says she's an angel
That's not a woman at all
What kind of angel, what kind of angel is that?
