

Err Thing Valid

Smoke DZA

Right up town get the money
Whole mother shakers, whole lot of hoes
Long live the players, whole lot of bread
Get to the paper all G from shine G
So full from Jacobs, this how I do it
Sermons wanna burn our little niggas hold the burn on
.. and the mermons,
You've gone wild in some mud
Send em on a mission only one is a dub
Get to show me love, keep it excited
Whole seat trap passport ..
Everything I touch goal
Touch of a minus, rolling that strong
You know I stake hided

Right, is call, you can roll up right here
Live life like you don't have a care
Champagne like every day is new years
It's the song that over here,
Err thing valid (valid, valid)
Err thing valid (valid, valid)
Err thing valid (valid, valid)
Err thing valid (valid, valid)

Blowing on so loud, might wake up the neighbors
Steady on the proud, ain't no time to lay up
Invited to the party, bottles and they payed us
This picture worth a million, now future see the player
Err thing valid, nigga just been poppin' shit
But I'm way more worried 'bout the stoppin' frist
Shawty got the fatty, might have copped the shit
Like she need the transportation, how she hopped on dick
Watch on wrist they stray kay
Tell these fools I ain't about play play
Vacay, killin' these niggas turnin' dunkin' straight face
24-7 I don't take no praise

Is call, you can roll up right here
Live life like you don't have a care
Champagne like every day is new years
It's the song that over here,
Err thing valid (valid, valid)
Err thing valid (valid, valid)
Err thing valid (valid, valid)
Err thing valid (valid, valid)
