When in every car I'm smoking weed  
Up in it, I don't know what type of shit you on  
I need at least a zip  
Didn't you hear? I say the cars I own are never least a whip  
Leather jacket, nigga muscle cars on that greasy shit  
And my bandana tied, I play to ride  
Live a movie so make sure the camera right  
And I'm pullin up and hoppin out a mess of shit that young niggas ain't supposed to get  
You know I'm rich  
Uh!  
Nigga my whole squad getting it  
Practically live on the road  
Doing 100 when I'm in this bitch  
You know niggas kinda slow  
A raw paper and some bong weed  
That lil nigga's tryna clone me  
And labels tryin to make the old me  
But I'm the only one and only

Hoes where you get that weed from?  
Please don't roll another one  
I don't even think that's trees son  
Bullshit, all this to show you something  
Motor running, tank on F  
High, I came high off the bed string  
I write with my left brain  
Haters face get tight when it's set game  
And them hoes know the business  
Ball tight game for the ones they missin  
No book, boy we handle bitches  
Nigga I rap clothes off yo women  
Clothes I smoke, we're all in one city  
Gold and chrome, 13 inches  
Bikes on the dashboard, 16 switches  
Car full of fumes, smoking that fuel  
X on in the ashtray of my team  
Send a hoe smellin like Chevron theme  
You more than whip, expectin you to  
Double my money, double the crew  
Triple what we smoked yesterday  
Then it's 4-20, 24/7  
Spitter Andretti, Ferraris and Chevys
