

Feel It Coming Near

Smoke Fairies

Look up at the sky
They predicted you'd be near
Saw the doom impending and guessed there would be tears
Stars you're old light
Are you wise?
Did you bring me here?

The mighty sky is calling
As you strap me down
Into the darkness
Never destined to be found
My trust is strong and eternal and I give it to you

Feel it coming near
And I don't know why

I feel it in my blood
Saturn's coming near
Like the night of my birth
Like the twenty- eighth year
Circles that turn are you wise enough to move me on?

Feel it coming near
And I don't know why

As I lift off my heartbeat trebles
I'm not coming back
Over your head I orbit three times and then burn out
Stars circle by like never before and then fade
And all the dogs howled to the night like a wave

When the water in my body wants to rise up with the moon
Seeks to greet the drying shoreline
Depart from me too soon
Soon you will flow, you will pour, drip away from me

Feel it coming near
And I don't know why
