

Living With Ghosts

Smoke Fairies

You to me
Are only a memory
Got a flame still burning
Where I know it shouldn't be
But it gets hard when the one you're thinking of is no longer.

I am haunted
You'll hound me for all of my days
And I know that somewhere
Things still go on the same
But it gets hard when the time you're living in is now passed

In my mind we still live there
All this time feels like I've gone nowhere
It can get lonely living with ghosts
You're in my heart till I die

So I ran to the mountains
Ran as far as I could
Got to find a new life
Wouldn't do me any good
'Cause it gets hard when the one you're thinking of is no longer.

In my mind we still live there
All this time feels like I've gone nowhere
It can get lonely living with ghosts
You're in my heart 'till I die

You're in my mind like an old ugly scar
I'll spend my life trying to hide
Days will go by
And I'll still think of you as if you were here by my side

In my mind we still live there
All this time feels like I've gone nowhere
It can get lonely living with ghosts
You're in my heart till I die
