

Santa's Kicking Up His Country Heels Tonight

Smokey River Boys

Santa's got a radio... he's listening to a band...
Playing down in Nashville at the Wildhorse on weekends...
He's turned the volume up... a stepping down the road...
He loves those country dance clubs...
Where they dance the Ho Ho Ho...

O... Santa's kicking up... his country heels tonight...
He's parked the sleigh and reindeer out beside the Christmas lights...
He's got on his dancing shoes... found a cowgirl or two...
O... Santa's kicking up his country heels tonight...

Santa bought some Justin boots... to dance in if you please...
He's got the dance club fever... from his head down to his knees...
When the work's all over... it's time to take a break...
And find a place to country dance... the Christmas night away..
.

O... Santa's kicking up... his country heels tonight...
He's parked the sleigh and reindeer out beside the Christmas lights...
He's got on his dancing shoes... found a cowgirl or two...
O... Santa's kicking up his country heels tonight...

O Santa's kicking up... his country heels... tonight...
O... Santa's kicking up... his country heels... tonight...
