

# Daylight And Darkness

Smokey Robinson

Midnight sun, shining through my darkest night  
Noonday shadow, blocking out my morning light  
You don't even know What I'm talking about  
It's what you do when you're just being you  
How can you be daylight & darkness, at the same time, oh baby  
How can you be daylight & darkness, at the same time

Flaming candle hey, burning in your sweet desire  
Eyes of coal, hard to handle  
Back and forward from ice to fire  
You don't even know what you're putting me through  
With all these bitter sweet things that you do  
How can you be daylight & darkness, at the same time, oh

How can you be daylight & darkness at the same time

O baby, oh baby  
You don't even know what I'm talking about  
It's just your way baby, that's what you say  
How can you be daylight & darkness... same time  
How can you be daylight & darkness, at the same time  
Ah daylight, daylight, daylight... daylight

Ooo hoo, darkness, darkness, darkness... time  
How can you be daylight & darkness, at the same time  
Same time, same time, my baby  
Ah... at the same time
