

# I've Been Good To You

Smokey Robinson

Look what you've done  
You made a fool out of someone  
(Out of someone)  
You thought love was true  
And found out that you we're just having fun  
(Just having fun)

And oh, why do you wanna make me blue  
After all, I've been good to you  
(I've been good to you)  
Oh, yes I have

And I recall the time  
You needed someone and I made you mine  
You needed a friend  
So I took you in and treated you so kind

And on, why do you wanna make me blue  
After, after all, I've been good to you  
(I've been good to you)  
Oh, yes I have

And you know I've always been around  
And I never, never, never let you down  
And now you're telling me that you must go  
You know that you're hurting me so

But there, there come a time  
One day, one day, one day you gonna wake up and find  
You'll come back to me on your bending knee  
And you're gonna be crying

And oh, believe me, what I say is true, baby  
After all, Lord I've been good to you  
(I've been good to you)  
Everyday and every way  
(I've been good to you)

You know, you know, you know, baby  
I've been so good  
(I've been good to you)
