

# Love Will Set You Free

Smokey Robinson

This is the right time, if you've been confused  
It's in a lifetime, it's up to you to choose  
So much happening, still you have a choice  
He gave you his word, and if you hear his voice  
Love will set you free (love will set you free)  
Love will set you free (love will set you free)

Weary of wonder, imprisoned in your doubt  
Love and thunder, your heart is crying out  
Don't you know that now you're standing  
In the danger zone (in the danger zone)  
But love won't leave you, to ever stand alone  
Love will set you free (love will set you free)

He said, come follow me and where we go  
(Come follow me and where we go)  
You can reap every dream you sow  
(You can reap every dream you sow)  
Nothing's impossible, when you believe  
Come follow me and you'll be free  
(Free free, free free)

Folloooooow, follow follow  
Folloooooow, follow

Well sometimes, sunshine (sometimes sunshine)  
Can be cold and gray (cold and gray)  
But love will warm you, let them lead the way  
Love will set you free (Free free, free free)

He said come follow me and where we go  
(Come follow me and where we go)  
You can reap every dream you sow  
(You can reap every dream you sow)  
Nothing's impossible, when you believe  
Come follow me and you'll be free  
(Free free, free free)

Come follow me and you'll be free (freeee)...
