Open

My love for you is open  
My love for you is open to  
Whatever you wanna do  
My hearts door is open  
No more positive feeling

All the signs of passion  
And warm desire  
Their welcome hand is out for you  
To come on inside

Open

You don't have to knock to come in  
the key

My golden arms are open  
To embrace your body  
With all the holdin' two arms can give  
Pull all this with me

Want you to know that  
Just tellin' you  
That is the key  
Too much been locked up inside of me  
Open

Open

My mind is always open  
Suggestions that you're ready to make  
I'm ready to take

Open

My love for you is open  
And all the stops, when I become yours  
If you make it so

There ain't no stoppin' you  
Love is the key  
Return as my lover  
It's all I ever will be

You gotta be open  
Well, everything is open  
Everything that I wanna do  
Is to on you
