

Ain't It Funny How It Works

Smokie

Ain't it funny how it works, you chase something all you
life,
then you find it when you'd finally given up.
When I least expected it, the stars lined up just right,
and suddenly I found myself in love.
When you're lyin' next to me, there's no place I'd rather
be on earth.
It's strange how simple love can be, ain't it funny how it
works.
Ain't it funny how it works, you know just the way I
feel,
before I even have to say a thing,
I see it every day, but it still amazes me,
what a little trust and honesty can bring.
When you're reachin out to me, I've got so much love to
return.
Love is such sweet mystery, ain't it funny how it works.
When you're lyin' next to me, there's no place I'd rather
be on earth.
It's strange how simple love can be, ain't it funny how it
works.
