

## All My Life

Smokie

You; you are my life,  
you are my only possession  
and I will love you all my life  
Years, years ago,  
you were my only obsession  
and I have loved you all my life  
you flew to me like a bird on the wing  
When, when I was down  
you stayed with me through the bad times  
for that I will love you all my life  
We can say we are free  
we don't need any more,  
we don't need any more  
Now there is no more,  
nothing less than the good times  
and I will be with you all my life  
Moments of joy with some moments of silence  
And I'll give you guidance all my life  
We can say we are free  
We don't need any more,  
We don't need any more  
You, you are my life,  
you are my only possession  
And I will love you all my life
