

Can't Change the Past

Smokie

He's got worn out black boots
There are holes in his jeans
& it seemed there are days when he played the paddy
For a while he almost made it & he
Reached to the star
But love did him wrong &
Broke his HEART
So, now he
's standing on the corner
Singing songs about his life
Crazy nights & lonely mornings
Couldn't back times
Every line tells a story
& he's living with no regrets
Coz what's done is done
U just cant change the past
He got lost for a moment
But he found his way out
Just in time before
He went down
But he still loves his music
& he plays when he can
The whole world is stage
For cash & count

Now he is standing on the corner
Singing songs about his life
Crazy nights & lonely mornings
Could nt back times
Every line tells a story
& he is
