

# Don't Turn Out Your Light

Smokie

Very nearly caught me out that time  
but let me win that's a memory of mine  
time caught up with you too soon  
and I cried enough tears to put oceans on the moon

Don't turn out your light  
don't turn out your light  
Don't turn out the light that  
I see shining from you to me  
It's so real

It's been four years since you've been gone  
but you touch me in the night and  
in me you live on

Don't turn out your light...

Grandad's son you're on my mind  
You're everywhere  
didn't know I'd miss you so  
till you weren't there

Don't turn out your light...

Times we shared together seem so few  
And oh what I'd do for more time with you
