

# Falling Apart

Smokie

Empty ships that sail away  
Empty nights, empty days  
I see the tears behind your smile  
We're lost in time.

Falling apart

Empty ships lost at sea  
Empty hearts, you and me  
There was no storm, there was no sound  
But our love has run aground.

It's falling apart  
All hands on deck  
We're falling apart  
My love is a wreck.

Harbour lights so far away  
Empty nights, empty days  
Empty sails so taut so still  
Does this love have no will.

It's falling apart  
All hands on deck  
We're falling apart  
My love is a wreck.

Can't you hear my S.O.S.  
Can't you see we're in disstres  
All that's left is an empty shell  
Can't you hear the lootin-bell.

Empty ships that sail away  
Lonely nights, lonely days  
There was no storm, there was no sound  
But our love has run aground.

It's falling apart  
All hands on deck  
We're falling apart  
My love is a wreck.

It's falling apart  
All hands on deck  
We're falling apart  
My love is a wreck.

It's falling apart  
Can't you hear me calling  
All hands on deck  
We're falling apart  
Can't you see I'm falling  
Can't you see I'm falling  
My love is a wreck.
