

# Hold On Tight

Smokie

She's a lonely rider on a lonely road  
A street survivor, a one man show  
Drive by the eyes of a stranger in the night  
Ooo never feld so good, never feld so right  
I said come home baby let me take you home  
I wanna rock you all night long  
Come on and hold me tight.

Well it all boils down to rock'n'roll  
You got a whole lot of love  
A hart full of soul  
Do all the things that you do so well  
Just keep it this way you don't want nobody else  
You've gotta hold on tight to what you've got  
Hold on tight to what you've got, to what you've got  
Hold on tight to what you've got.

Another reckless heart in a changing world  
Another worn out lover gets his fingers burned  
Well that's the price of love and that's the debt you  
pay  
Ooo baby love can be dangerous and it's the game you  
play  
You gave me love, you gave me hell  
Never had a lover I've known so well  
Come on and hold me tight.

Well it all boils down to rock'n'roll  
You got a whole lot of love  
A hart full of soul  
Do all the things that you do so well  
Just keep it this way you don't want nobody else  
You've gotta hold on tight to what you've got  
Hold on tight to what you've got, to what you've got  
Hold on tight to what you've got.

Come on everybody  
Listen  
Hold on, hold on  
I'm gonna make you  
Hold on, hold on  
You've got to hold tight  
Hold on tight to what you've got  
To what you've got, to what you've got  
To what you've got, to what you've got  
To what you've got, to what you've got.
