

# Hot Lovin'

Smokie

Streets with no names  
Somehow lead me back to you  
Love with no shame  
Brings me to the heart of you  
Each time it's the same

And I see you in the light  
And it takes my breath away  
To know you're waiting for me  
And I'm looking in your eyes  
And you're looking into mine

Hot Lovin' comes over me  
I gotta stop and take the fall  
Hot lovin' and I can't break free  
I'm standing here back's against the wall  
It's just something I need like the air that I breath  
Your loving keeps bringing me back  
Back to you baby

Days without end  
Keep me far away from you  
But a voice on the wind  
Tells me you're waiting for me  
And I'm looking in your eyes  
You're looking into mine

Hot Lovin' comes over me  
I gotta stop and take the fall  
Hot lovin' and I can't break free  
I'm standing here back's against the wall  
It's just something I need like the air that I breath  
Your loving keeps bringing me back  
Back to you baby

Let the rain keep falling down  
I'll find the sun in your arms  
I can't stay away for long  
This feeling's way too strong  
I keep running to you baby  
It's where I belong

Just like the air that I breath  
Your love keeps bringing me back

Hot Lovin' comes over me  
I gotta stop and take the fall  
Hot lovin' and I can't break free  
I'm standing here back's against the wall  
It's just something I need like the air that I breath  
Your loving keeps bringing me back  
Back to you baby
