

## Looking for You

Smokie

I know you're out there  
somewhere tonight  
I know our stars haven't cross yet  
But there's a chance that they might  
I'll find you someday  
Oh and then we'll begin  
Finding ways to make up for the lost time  
but girl, until then  
I'll go on looking for you  
for a love that is true  
In my mind you're all I see  
I'll go on counting the nights  
'til you're part of my life  
Instead of only in my dreams  
I'll go on looking for you  
'Till I have you here with me  
A trail of neon  
lights up the night  
Showing me faces of strangers  
That just pass on by  
I've searched for so long  
and still I'm hoping to find  
a heart that is beating for my love  
But until that time  
I'll go on looking for you...
