

Looking for You

Smokie

I know you're out there
somewhere tonight
I know our stars haven't cross yet
But there's a chance that they might
I'll find you someday
Oh and then we'll begin
Finding ways to make up for the lost time
but girl, until then
I'll go on looking for you
for love that is true
In my mind you're all I see
I'll go on counting the nights
'til you're part of my life
Instead of only in my dreams
I'll go on looking for you
'Till I have you here with me
A trail of neon
lights up the night
Showing me faces of strangers
That just pass on by
I've searched for so long
and still I'm hoping to find
a heart that is beating for my love
But until that time
I'll go on looking for you...
