

# Midnight Delight

Smokie

Late at night out on the street I found myself going no  
where

Just walking and thinking soaking up the midnight air  
Following the footsteps of a total stranger  
Just a wondering soul with no sense of danger.

In the distance there is a shadow from a doorway I long  
in

In the doorway stood a lady with a smile behind her  
silent tear

I asked her if she like me company  
Then we took to the night two hearts running free.

A midnight delight  
The midnight hour  
A midnight delight  
Is hard to believe  
A midnight delight  
A total stranger  
A midnight delight  
Making love to me  
A midnight delight  
While in the street lights  
A midnight delight  
Out on the town  
A midnight delight  
Oh, that little lady  
She don't fool around.

I asked her if she liked me company  
Then we took to the night two hearts running free.

A midnight delight  
The midnight hour  
A midnight delight  
Is hard to believe  
A midnight delight  
A total stranger  
A midnight delight  
Making love to me  
A midnight delight  
While in the street lights  
A midnight delight  
Out on the town  
A midnight delight  
Oh, that little lady  
She don't fool around.

Late at night out on the street I found myself going no  
where

Just walking and thinking soaking up the midnight air  
Following the footsteps of a total stranger  
Just a wondering soul with no sense of danger.

A midnight delight  
The midnight hour  
A midnight delight

Is hard to believe  
A midnight delight  
A total stranger  
A midnight delight  
Making love to me  
A midnight delight  
While in the street lights  
A midnight delight  
Out on the town  
A midnight delight  
Oh, that little lady  
She don't fool around.

A midnight delight  
A midnight delight  
A midnight delight...
