

Midnight Train

Smokie

Get on board at the city line
Head up north on the 45
Live for the weekend
It's friday night

Summer nights they come and go
Just kids going out to show
Spending hard earned all night long

Gonna leave our worries behind

On the midnight train to paradise
(No more) looking back we can say
That we were right
We're on the midnight
Train to paradise
It's the place to be calling
Destiny tonight

On the trail of the neon lights
Cruisin' cars in the city night
Hit the road still running playin' cool
Jump the bars and blow a fuse
Crazy girls we can never lose
Breakin' hearts and breakin' all the rules

And we all go crazy going crazy tonight

On the midnight train gonna get away
The feelings running high
And adrenalin's started pumping in
It's time to let it by
