

Mistral Wind

Smokie

Each time I leave you
It's with a heavy heart
But these obligations
Keep us apart
This chill in the air here
Makes me miss you even more
Wish I was standing on your shore

Mistral wind blowing from north west
Taking me back to the place I can rest
Mistral wind won't you carry me home
Back to the heart of Paleo

Learn to see your shooting stars
And feel the evening breeze
Walk along the rocky path
Among your olive trees
And though you're just one tiny jewel
In the Ionian sea
There's no place else I'd rather be

Mistral wind blowing from north west
Taking me back to the place I can rest
Mistral wind won't you carry me home
Back to the heart of Paleo

So I'll keep working hard and
Waiting for the day
When I'll be coming back to stay

Each time I leave you
It's with a heavy heart
But these obligations
They keep us apart
This chill in the air here
Makes me miss you even more
Wish I was standing on your shore
Wish I was standing on your shore
