## **Smokie**

I was walkin the streets of Vienna Just a shootin' my mind when an angel of the night She stopped, said are you looking for a good time Well I'd had me a whisky or two and I had nothing else better to do, so I said come on let's get down and she blew my - mind One night in Vienna I was your lover, you were my friend One night in Vienna One night I never wanted to end wanted to end Oh, oh, oh Said I'd meet her on the corner Same time, same place Lots of street girls passed me by- but No sign of my angel's face then another one stopped me And I couldn't resist But she just left me standing with a keepsake and a kiss One night in Vienna... I often wonder whatever happened to my angel One night in Vienna...
