

## Scream You Guitar

Smokie

I worshiped you  
treasured you  
Drove my soul inside of you  
Dreamed a dream for me and you  
It's turned into a nightmare  
And like a drug  
I can't break loose  
I've died a million times for you  
And like a leech you suck from me  
the hope, the strength left in me  
My sanity still clings to me  
I've bared my soul for all to see  
sold my very history  
A song to please the nation  
I turn my frown to dancing clown  
sing my songs, turn on the charm  
To earn some love, to keep me warm  
My guitar plays for you  
So scream you guitar  
Scream for my pain  
Cry for your share of this fortune and fame  
Scream you guitar  
Scream for the shame  
You cannot escape your share of the blame  
Yet still I find this need in me  
to prove myself to all who see  
that I am what I dreamed I'd be  
and I will live forever  
at center stage I'll take my place  
Emotion drawn upon my face  
My guitar slung around my waist  
I'm here to play for you  
So scream you guitar...
