

This is Wot I Did

Smokie

Six o'clock in the morning still walking the floor
We should have been talking, instead of closing the door

Instead of going crazy tonight
should have thought about getting it right

Cos this is wot I did while you were foolin' around
This is wot I did you were making no sound
This is wot and it just don't seem right
And if you think this over
I won't give in I just won't give in

Seems that we're getting restless
I'd better knock on your door
See if you're still sleeping and ask you what it's all
for

Instead of getting out of your head
should have thought about the things you said

Cos this is wot I did while you were foolin' around
This is wot I did you were making no sound
This is wot I did it just dom't seem right
And if you think this over I just won't give in

Cos this wot I did
