

## We're Flyin' High

Smokie

Did you ever look down on an Egyptian plain  
Did you ever look down upon the golden grain  
and if you could find water on that Egyptian plain  
Would you ever go back there again  
and did you ever head out across the Aegean sea  
Have you looked down on a sunrise in the east  
And if you saw your reflection in that Aegean sea  
Could it mean that that's where you were meant to be  
But you and I, we're flyin' high  
We'll touch the sky  
We're flyin' high  
Can you still see the water, can you still see the sands  
Higher and higher away from the land  
We were born in the waters, lost in the sands,  
Now, we're flyin' high
