

## Where Sorry's Not Enough

Smokie

Wounded heart, I've been hopin'  
There's a way gonna open  
To a place where It's easy to forget  
Every dream lyin' broken  
I'm so tired of eeling this regret  
Watching shadows turn to winter on your face  
I don#t wann live her  
It's cold cold unforgiving place  
Where sorry's not enough  
where the words have lost it's meaning  
where nothing I can do can make it up to you  
No I can't go on living  
where sorry's not enough  
All the bad moves I've been makng  
all the trust I've been breaking  
all the lies have been turning you to stone  
Reaching out, trying to touch you  
begging you one more time  
I'm standing on the edge  
Watching shadows turn to winter on your face  
I don#t wann live here  
It's cold cold unforgiing place  
where sorry's not enough...  
Apologies pour like water from my tongue  
Now there's nothing left to say  
As I survey the damage done  
where sorry's not enough...
