You're So Different Tonight

Smokie

Baby, I've never seen you look the way you do There's something special in your eyes Maybe I, I should tell you how I feel for you I want your love to be mine Cause you're so different tonight You shine when you walk in the room You're so different tonight Seems all the boys have eyes for you hypnotise I fantasise Ooh, ooh, ooh ... tell me you feel it too No one could look the way you do Lately I, I've been thinking about you and me And what the future has in store Lady, I need to tell you what I really need I want your love for evermore Cause you're so different tonight... Oh baby, I love you I want you to feel like I do
