

# I Know You Love Me

Smoking Popes

This world is freezing cold  
I long for you to hold me in your arms  
This world is burning, and  
I'm waiting for your hand to lead me home

I know that you love me  
Oh, I know you love me  
Oh, I know you love me

This world is frightening  
I see lightning in the sky  
I hear the wind howl  
Please, help me to be strong  
I know it won't be long  
Till I'm with you

Well, here I am  
Wandering down a darkened road  
Your love shines  
Always in my heart  
Always in my heart

This world is freezing cold  
I long for you to hold me in your arms  
Please, help me to be strong  
I know it won't be long  
Till I'm with you

Oh, I know you love me
